Input
Details

56523 Magic Number

Random generated numbers to helps MT4 identify the owner of the trade.

Subscription ID

Numbers used to identify the subscriber of FX Gold Prime. You can find it in your "Order Confirmation Email" or contact and retrieve it from customer support.

Initial Lot

Starting lot size.

Highest Lot

The highest lot size allowed.

Martingale Distance (pips)

The minimum pip distance required to open a new trade. **Not recommend to set it below 30.**

2x Martingale Lot Multiplier

The higher the multiplier, the higher the profit potential and risk. **It is set at 2.0 by default.**

Martingale Mode

Enable to activate martingale.

Trailing Start

The value of pips to initiate Trailing. Set this value higher than Take Profit to disable Trailing.

Trailing Step

Once trailing is activated and reaches the Trailing Step value (in pips), it will lock the current value as the new Stop Loss.

Account Stop Loss %

Once the equity goes below the set value (%), stop loss will take place.

News Filter

Enable to filter high impact news.

Take Profit

The trade will be closed once the profit reach the pips value.
